LaserWriters: Driver Availability for Windows NT 3.5.1 (2/97)

Article Created: 1 April 1996
Article Reviewed/Updated: 24 February 1997

TOPIC ---

Are there any Apple LaserWriter printer drivers available for Windows NT 3.51?

DISCUSSION --

The drivers in the following list are included in Windows NT 3.51 and are
supported by Microsoft.

LaserWriter
LaserWriter Plus
LaserWriter 16/600
LaserWriter Pro 600
LaserWriter Pro 630
LaserWriter Pro 810
LaserWriter Select 360
LaserWriter IINT
LaserWriter IINTX
LaserWriter IIf
LaserWriter IIg
Personal LaserWriter NTR

Apple provides Windows NT printer drivers for the following LaserWriter
printers:

Color LaserWriter 12/600 PS
Color LaserWriter 12/660 PS
LaserWriter 16/600 PS
LaserWriter 12/640 PS

These drivers were tested with Windows NT 3.5 and 3.51 but were not tested with
Windows NT 4.0. For Windows NT 4.0, use the drivers supplied by Microsoft. For
more information about driver availability with Windows NT 4.0, please refer to
the Tech Info Library article titled, "LaserWriters: Driver Availability for
Windows NT 4.0."

Microsoft wrote the AppleTalk stack for Windows NT, and they support network
printing to these printers (not Apple). If you are using Windows NT for network

printing, you should be aware there are problems with the Windows NT AppleTalk
stack prior to version 3.5. Apple does support parallel printing on Windows NT.

Article Change History:
24 Feb 1997 - Added Windows NT 4.0 information.
24 Jan 1997 - Added Color LW 12/660.
14 Oct 1996 - Added LaserWriter 12/640 PS to the Apple list.
