Shiva EtherGate: Supports Remote TCP/IP

Article Created: 13 June 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

Does Shiva's EtherGate support TCP/IP over remote networks?

TCP/IP-->Ethernet ---->EtherGate --->modem--modem EtherGate---Ethernet--
TCP/IP

DISCUSSION -----

Shiva Tech Support states that the above configuration should work. If you are using dynamic address, the local and remote devices have to be in the same zone. If you are using static address, it does not matter.
