AWS 95, A/UX 3.0.1 and DEC One GB Drive (7/93)

Article Created: 15 July 1993

TOPIC -----

I purchased A/UX several months ago and ended up returning it because of compatibility problems with a DEC DSP 3105S one GB Hard Drive.

I now want to purchase an Apple Workgroup Server (AWS) 95, but I'm concerned this same problem will be encountered.

Has the incompatibility between A/UX and the DEC DSP 3105S one GB Drive been resolved?

DISCUSSION -----

Yes, the problem with the DEC DSP 3105S one GB drive on an AWS 950 has been fixed, and tested with an AWS 95 and A/UX 3.0.1.
