## MacWorkStation: TCP/IP Support Now Available

Article Created: March 17, 1991

Article Reviewed Only:

Article Last Updated:

TOPIC -----

I want to use MacWorkStation on a Sun connected with MacTCP. Will MacWorkStation support this?

DISCUSSION -----

TCP/IP support for MacWorkStation is available with a TLPM called telnet•PM from Ramsay Consulting. The program can be ordered through APDA.

More information about telnet•PM is available on the MacWorkStation AppleLink bulletin board. Use the BB Pathfinder to find it on AppleLink.

You'll find much useful information here on MacWorkStation.

For more information in the Tech Info library, search on "Ramsay" or "APDA"
