NuBus: Transfer Rate

Article Created: 17 May 1988

Article Last Reviewed: 21 July 1992

Article Last Updated:

TOPIC -----

Some users have asked about the speed of the NuBus data exchange.

DISCUSSION -----

NuBus transfer rate is approximately 2.5MB/sec at 10 MHz.

An average time is 700ns per transaction--"average" because the time is influenced by the type of data being transferred, and by other processes being transmitted across NuBus.
