Performa: Desktop Colors and Patterns (7/93)

Article Created: 21 July 1993

TOPIC -----

I own a Performa 405 and would like to know if there is any way I can change my desktop color. In the control panel only a few pre-made patterns are offered.

DISCUSSION -----

You can use a variety of products, both Shareware/PD and commercial, that will allow you to change the background pattern on your desktop. Commercial products like Wallpaper or Shareware/PD products like Deskpics and Desktop Textures allow you to change your background.
