## Performa 6360 & 6400 Video Editing: Can't Register (12/96)

Article Created: 19 December 1996

TOPIC -----

When I try to register my Macintosh Performa 6360 or Macintosh Performa 6400 Video Editing System computer, I do not see an option for my computer. Does this mean I have the wrong software bundle?

DISCUSSION -----

The registration Model Number pop-up menu only shows options for the Macintosh Performa 6400/180 and 6400/200, which are very similar to your computer. This software was originally introduced on those computers, but the release of the Macintosh Performa 6360 and Macintosh Performa 6400 Video Editing System followed soon thereafter.

For the purposes of registration, choose one of the Macintosh Performa 6400 options. Although the software was inadvertently not updated for your computer, this will not affect your registration process. Also, you do have the correct software bundle for your computer.
