Performa 6360/6400: PhotoDeluxe User Guide Error (3/97)

Article Created: 10 March 1997

TOPIC -----

This article discusses an error in the Adobe PhotoDeluxe User's Guide.

DISCUSSION -----

The Adobe PhotoDeluxe User's Guide pages 8-9 refers to a number of items which should be on the PhotoDeluxe CD, but are missing.

These include:

- * The trial version of DiAMAR Interactive's Better Photography
- * Berkeley System's After Dark
- * MetaTool's Special Effects.
- * Acrobat Reader

Where can these items be located?

Acrobat Reader is pre-installed on the computer's hard disk. The other items have not been licensed for inclusion with the PhotoDeluxe software included with the Performa 6360/6400 computer.

They are included with the PhotoDeluxe bundle sold by Adobe or they can be purchased separately from their respective manufacturers.
