DAL: Support for PICK Database

Article Created: 13 August 1991
Article Last Reviewed: 29 June 1992

TOPIC -----

I'm interested in using DAL with a PICK database, or rather a Unidata PICK clone that runs under UNIX and supports SQL (which the real PICK does not).

Have you heard of any such database? If not, do you have any feel for how long it takes to write a new DAL server based on the DAL server package?

DISCUSSION -----

There is no DAL server/adaptor for PICK databases.

There is no facility to enable non-licensed creation of servers or DBMS adapters to work with DAL.
