GrayShare: No Driver for ImageWriter (5/94)

Article Created: 12 January 1993

Article Reviewed/Updated: 24 May 1994

TOPIC-----

Does the GrayShare software released with the StyleWriter II work with the ImageWriter and original StyleWriter?

DISCUSSION-----

The GrayShare software must be built into the particular print driver, as with the StyleWriter II and Apple Color Printer drivers. There is no GrayShare driver for the ImageWriter or ImageWriter II.

The original StyleWriter works with the GrayShare software. There is a GrayShare Update disk with all the necessary software available through many of the electronic online services, or you local Apple dealer.
