- To describe version scheme more fully.

TOPIC -----

What is the System 7-compatible version of the Apple CD-ROM INIT?

DISCUSSION -----

Use version 3.0.2 (or later) of the Apple CD-ROM system extension (or INIT) when using System 7.

Note that the CD-ROM Software version as a whole may be a different version number than the CD-ROM extension by itself. For example, CD-ROM Software v3.2 comes with Apple CD-ROM system extension 3.1.
