## System 7: Three-D Desktop Background Patterns

Article Created: 5 August 1991

### Article Change History

-----

09/11/92 - REVISED

- For clarity.

### TOPIC -----

How do I get those neat background patterns that I see advertised with System 7?

### DISCUSSION -----

If you install System 7 over another system, you won't see the new patterns. This is because System 7 saves the old patterns over the new desktop patterns when you install over the old system. Install System 7 on a clean drive (a drive from which you have removed the System Folder) to see the new patterns.

For larger images and patterns, look for shareware or commercial utilities like Wallpaper which provide this capability.
