Macintosh Plus: Distribution of Features in System File and ROMs

To distinguish between the contents of the new ROMs on the Macintosh Plus logic board and the contents of the new System file (3.0 and greater), keep in mind the locations of the following features:

New ROMs only:

1. HD 20 Driver
2. Zoom Box
3. HFS

Both new ROMs and new System file (3.0 and greater):

4. AppleTalk Driver
5. System Font
6. Serial Driver
7. Numerics Package
8. Elementary Functions Package

Features 4 through 8 are contained in BOTH the ROMs and the System file in order to maintain compatibility with the old ROMs.
