## MacroMind Director 2.0 Bug: Conflict with On Location

This article last reviewed: 11 September 1990

TOPIC -----

Is there anything about peculiar about the ON Location update (special edition of Desktop Focus)?

DISCUSSION -----

No, there is nothing peculiar about On Location. Rather, the problem was with MacroMind Director release 2.0. Disabling the ON Location INIT was the temporary workaround. The solution is to get release 2.0.1 of MacroMind Director. It fixes the bug.
