## Freehand 3.1, Sys 7.1, Quadra 700 & 950: Use System Update 3.0

Article Created: 15 October 1993

Article Reviewed/Updated: 13 September 1995

### TOPIC -----

I am having problems working with Aldus Freehand 3.1. The first time I create a document, it works fine. If I edit the document, clicking on anything (editing and magnifying) freezes the application. Aldus tells me this is a problem with my Quadra 700.

### DISCUSSION -----

#### The Problem

-----

The problem was with the way Aldus handled their screen buffers. With System 7.0 or 7.0.1, there was no problem. When customers upgraded to System 7.1, then Quadra 950s and Quadra 700s could exhibit the problem.

#### The Solution

-----

The remedy is to install the latest System Update for System 7.1, currently System Update 3.0.

These articles can help you locate the software update mentioned here:

- "Where To Find Apple Software Updates" - Lists online services for free Apple software updates.
- "Obtaining Apple Product Support in the USA" - Lists 800 numbers and online services for software updates, Apple support information, and a subset of the Apple Tech Info Library.
