TOPIC -----

This article describes the Visual Almanac, a product available from Optical Data Corporation.

DISCUSSION -----

The Visual Almanac is an interactive multimedia kit that combines a videodisc with the Macintosh computer running HyperCard.

It features three segments:

- a collection of 7,500 moving and still images and sounds
- a composition workspace for manipulating text, images, and sounds
- 14 student activities in science, the arts, social studies, and mathematics

The package contains a 2-sided LaserDisc, a CD-ROM disc, a cable to connect the Macintosh to several different popular LaserDisc players, and documentation.

Call Optical Data Corporation for an order form. You can find the phone number and address in a separate article in the Tech Info Library.
