## Apple HD Backup: Incompatible with SuperDrive Floppies

Article Created: 13 August 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

Is Apple's HD Backup compatible with High Density 1.44MB floppies?

DISCUSSION -----

HD Backup is incompatible with the Apple SuperDrive. It doesn't correctly format diskettes inserted in this type of drive -- and it tries to format every diskette it's going to back up to.

Apple HD Backup ceased shipping with System Software beginning with System 6.0.5, and is no longer shipping with external disk drives beginning with those bundled with System 6.0.7.
