Apple HD SC Setup 2.0 Update Not Backward Compatible

This article last reviewed: 20 January 1989

Apple HD SC Setup 2.0 is able to update the drivers only on hard drives formatted with HD SC Setup 2.0.

For example, if a hard disk was formatted with HD SC Setup 1.5 or earlier, HD SC Setup 2.0 will NOT be able to update the drivers on that drive. Apple HD SC Setup 2.0 is completely compatible with System Software 6.0.2.

It's okay to use versions of HD SC Setup older than version 2.0 with System Software 6.0.2, but we recommend using the latest version of HD SC Setup whenever possible.
