## Color OneScanner: Difference Between Rev A and Rev B (2/95)

Article Created: 6 February 1995

TOPIC -----

Is there any way to tell the difference between the Apple Color OneScanner rev. A and rev. B from the outside?

DISCUSSION -----

Yes, the Apple Color OneScanner Rev.A has a lamp replacement access door on the right side of the scanner. This door is absent on the Apple Color OneScanner Rev.B.

The removal of the access door is the only difference (both internal and external) between the Rev. A and Rev. B Apple Color OneScanner .
