Apple Color Printer: Printer Description Files (9/94)

Article Created: 26 March 1993

Article Reviewed/Updated: 1 September 1994

TOPIC -----

Is Apple working on a Quark Xpress PDF (Printer Description File) for the Apple Color Printer?

DISCUSSION -----

We have not heard of any PDF (Printer Description File) files for the Apple Color Printer. If one is required for Xpress, you would have to acquire it from Quark, Inc. since it would be an application-specific file.

Apple is responsible for creating PPD (PostScript Printer Description) files for our LaserWriters. It's still up to the developers to acquire the files from Apple Developer Technical Support and then modify (if needed) and distribute the files.
