## ImageWriter II: Command for Disabling Perforation Skip

Article Created: 29 April 1992

Article Last Reviewed:

Article Last Updated:

TOPIC -----

Is this the ImageWriter II command code to DISABLE perforation skip?

ESC D CTRL @ CTRL D or \$27 68 00 04

(as shown on page 144 of the ImageWriter II Technical Reference Manual)?

DISCUSSION -----

The string of "ESC D CTRL @ CTRL D" is indeed the correct command string to disable the perforation skip.

This command works only if the perforation skip was enabled via software. In other words, you must set the ImageWriter II DIP switches so that perforation skip is disabled. If you enable the perforation skip with the string "ESC Z CTRL @ CTRL D" you can disable it with the string "ESC D CTRL @ CTRL D".
