## ImageWriter LQ: Accessories Needed for Handling Envelopes

This article last reviewed: 18 February 1991

TOPIC -----

I need help in handling the sheet feeder--expansion bin--envelope attachment setup for an ImageWriter LQ.

- 1) If I want to have the envelope attachment in place at all times and also want to use the cut sheet feeder, must I also have an expansion bin?
- 2) For the above setup (envelope attachment plus one expansion bin), is the correct DIP switch configuration the one described as "Two Bins Plus Envelope"?

DISCUSSION -----

- 1) In order for you to have the envelope attachment in place on the ImageWriter LQ, you'll need to have an expansion bin to hold the paper.
  - 2) Yes, you are correct. The DIP switch setting for "Two Bins Plus Envelope" is the setting you should use.
