ImageWriter LQ Sheet Feeder: Paper Specifications (8/94)

Article Created: 17 October 1991

Article Reviewed/Updated: 31 August 1994

TOPIC -----

How thick can the paper in the ImageWriter LQ Sheet Feeder be? I found the paper thickness spec for the printer -- is it the same for the feeder?

NOTE: This product has been discontinued and is no longer available.

DISCUSSION -----

The paper specifications for the ImageWriter LQ Sheet Feeder are the same as for the printer, except that the Sheet Feeder can't do multi-part forms.

Here are the paper thickness specifications from the ImageWriter LQ Owner's Guide:

- 0.05 to 0.55 mm
- 0.002 to 0.028 inch
- 16 to 24 lb. paper
