## LaserWriter Plus: Description (Discontinued)

Article Created: 26 May 1992

Article Last Reviewed:

Article Last Updated:

TOPIC -----

This article describes the LaserWriter Plus.

DISCUSSION -----

The LaserWriter Plus has all the features and power of the LaserWriter, with seven additional typeface families including ITC Avant Garde, ITC Bookman, Helvetica Narrow, New Century Schoolbook, Palatino, ITC Zapf Dingbats and ITC Zapf Chancery. The LaserWriter Plus has one full megabyte of ROM (one-half megabyte more than the LaserWriter). The LaserWriter Plus is available as a pre-assembled package.

The LaserWriter Plus Kit enables users to upgrade a LaserWriter into a LaserWriter Plus. Here are the kit components:

- Sixteen 512K ROM chips contain 11 built-in type families
- A Printer Installation Disk with print drivers for the LaserWriter (All LaserWriter users' systems must be updated with the Printer Installation Disk.)
- A Fonts Disk which includes a copy of the Font/DA Mover and the screen fonts for all printer fonts shipped in the LaserWriter Plus Kit
- A revised LaserWriter Manual, describing all the new software features
- A Dealer Instruction Sheet, return mailer with label, and return form
- A LaserWriter Plus label to affix to the outside of the LaserWriter after the ROMs have been installed
