LaserWriter Plus: 3.0 ROM, PostScript 47 Upgrade Available

This article last reviewed: 21 July 1989

TOPIC -----

Is there a version 3.0 ROM for the LaserWriter Plus?

DISCUSSION -----

Yes, version 3.0 of the LaserWriter Plus ROMs contains version 47 of PostScript. To determine if a LaserWriter Plus has 3.0 ROMs, look on the test page at the line graph. The version number of the ROMs is at the bottom left corner of the chart.

If a LaserWriter or LaserWriter Plus does not have version 3.0 ROMs (PostScript version 47), you can upgrade the printers with the LaserWriter Plus Kit (M0191).
