## Scribe Printer: What Kinds of Paper to Use (10/93)

Article Reviewed/Updated : 20 October 1993

TOPIC -----

What kind of paper can I use in the Scribe printer?

DISCUSSION -----

Tests of continuous feed papers for the Scribe Printer have shown that most smooth finish papers are acceptable, whether fanfold or single-sheet.

If you wish to use other papers, keep in mind that although no specially-coated paper is necessary, it's nevertheless true that the smoother the paper, the better the print quality. Even standard pin-feed and copying machine papers (such as Xerox 4024 copy paper) yield satisfactory results; avoid using rougher-textured papers, though, such as personal stationery or papers with a high rag content.
